## DETAILED ACTION

### ***Status of the Claims***

1. This action is in response to the RCE filed on September 29, 2004. Claims 1-18 are pending. Claims 1, 10 and 14-17 are amended. Claim 18 is added.

### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17, drawn to managing costs related to network apparatuses by classifying each network apparatus based on a combination type, classified in class 379, subclass 111.
- II. Claim 18, drawn to managing costs related to network apparatuses by reference to a subscriber table for a match, classified in class 707, subclass 1.

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as classifying each network apparatus, which can be used for network inventory management other than for managing network costs. Invention II also has separate utility such as the subscriber table, which can be used for personal information collection other than for managing network costs. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3621

5. Applicant is advised that the reply to this requirement to be complete **must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).**

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Art Unit: 3621
